NATIONAL ELIGIBILITY FOR STUDENTS WITH AN INTELLECTUAL DISABILITY

VERSION: MARCH 2020

ATHLETE REGISTRATION AND PRIMARY ELIGIBILITY APPLICATION

NATIONAL ELIGIBILITY GUIDANCE NOTES

Introduction

Sport Inclusion Australia is the national sporting organisation established in 1986 to represent the needs of athletes with an intellectual impairment.

Sport Inclusion Australia is responsible for managing the national eligibility process for students wishing to compete within the intellectual impairment classification.

Virtus is the International Federation for sport for athletes with an intellectual impairment, which manages and oversees international classification for intellectual impairment.

Sport Inclusion Australia is the Australian Member organisation of Virtus.

Eligibility and Classification

The eligibility criteria define the minimum impairment necessary to compete as a student with an intellectual disability.

National Eligibility

Eligibility has been introduced to promote the growth of eligibility classification within Australia.

National Eligibility with Sport Inclusion Australia does not guarantee that athletes will meet Virtus International classification and will not permit students to enter Virtus World Championships and International Paralympic Committee, IPC, sanctioned events.

International Eligibility and Classification

There are three (3) levels of Inas International classification for athletes with an intellectual impairment.

- Level 1 Provisional International Eligibility – which permits entry to Inas Developmental Events.
- Level 2 Full Primary Eligibility – which permits entry to Virtus Regional, World Championships and Global Games.
- Level 3 Sport Specific Classification – which is necessary for Paralympic Sports.

Virtus governs the first two levels, but Level three is governed by the International Federation for the specific sport.

For further information about International Classification for intellectual impairment – contact Sport Inclusion Australia or refer to www.virtus.sport/.

Defining Intellectual Disability

The Primary Eligibility Criteria used by Virtus/Sport Inclusion Australia is based upon the American Association on Intellectual and Developmental Disability (AAIDD, 2010) definition of intellectual disability which is consistent with that of the World Health Organisation (WHO, ICD-10 and ICF, 2001), and states:

“Intellectual Disability is a disability characterised by significant limitation both in intellectual functioning and in adaptive behaviour as expressed in conceptual, social and practical adaptive skills. This disability originates before the age of 18”

The Primary Eligibility Criteria

Based upon the AAIDD definition (above), the Virtus/Sport Inclusion Australia Primary Eligibility Criteria to compete in intellectual impairment sport is:

1. Significant impairment in intellectual functioning. This is defined as 2 standard deviations below the mean, that is, a Full Scale score of 75 or lower.
2. Significant limitations in adaptive behaviour as expressed in conceptual, social, and practical adaptive skills. This is defined as performance that is at least 2 standard deviations below the mean of, either:
 - a. One of the following 3 types of adaptive behaviour: conceptual, social, or practical skills
 - b. An overall score on a standardised measure of conceptual, social and practical skills.
3. Intellectual disability must be evident during the developmental period, which is from conception to 18 years of age.
