II-3 School Sport Eligibility

Fact Sheet

About Sport Inclusion Australia

Sport Inclusion Australia is a national sporting organisation established in 1986 to support the inclusion of people with an intellectual impairment – including intellectual disability and/or autism – into the mainstream community through sport. We are the national organisation responsible for processing eligibility applications for athletes with an intellectual impairment.

What Is II-3 Eligibility?

Eligibility is the set of criteria used to determine whether an athlete with Autism meets the requirements to compete in II-3 designated school sport events. To be eligible, the required evidence must be provided.

Autism Diagnosis

The initial formal diagnosis of Autism is required as evidence. The Autistic specific tools that are accepted are listed below:

- ADOS/ADOS2 (Autism Diagnostic Observations Schedule)
- ADI-R (Autistic Diagnostic Interview - Revised)
- CARS (Childhood Autism Rating Scale)
- DISCO (Diagnostic Interview for Social and Communication Disorders Framework)
- GARS (Gilliam Autism Rating Scale)
- AAA (Adult Asperger Assessment)
- RIMLAND (Autism Diagnostic Instrument)
- ASRS (Autism Spectrum Rating Scales)
- ISAA (Indian Scale for the Assessment of Autism - for ages 2-9 only)

In some cases where the above tools have not been used but specific comprehensive evidence has been gathered by a multi-disciplinary team and mapped against either the ICD 11 or DSM 5 frameworks this may be acceptable at the discretion of the eligibility panel.

What Do I Need To Submit?

- ✔ Athlete II-3 Registration and National Eligibility Application Form which includes page 3 completed and signed by a professional/expert in the area of Autism
- ✔ The accepted Autism diagnosis report
